ArcGIS Online

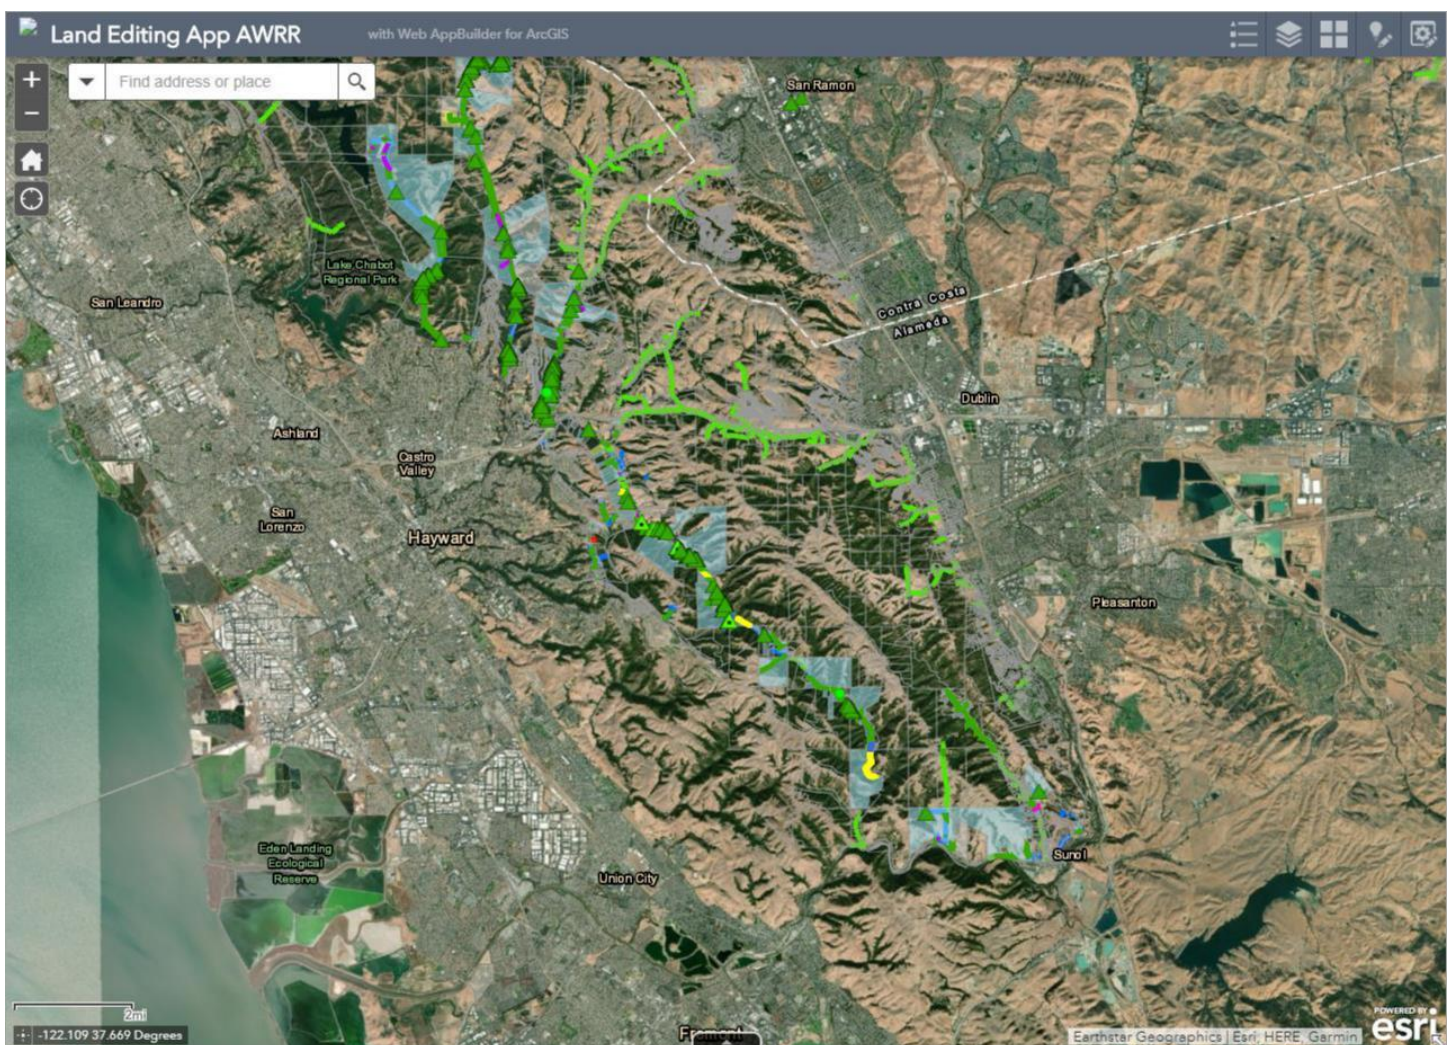

Widgets and Tools

Widgets and Tools

Launching the App

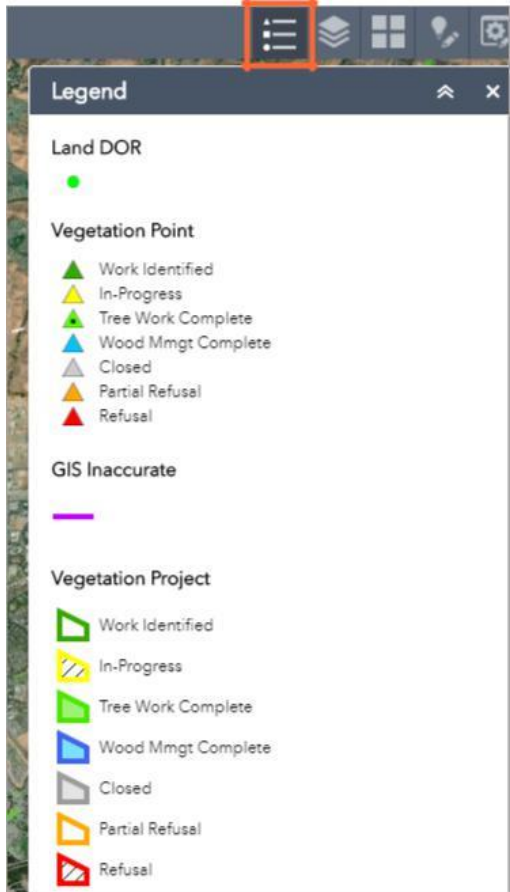

Use the Land Editing EVM application to view or update on a desktop computer. The app is best viewed using the Chrome browser.

Use this link to access the app: <https://tinyurl.com/EVM-Land-Editor>

Widgets and Tools

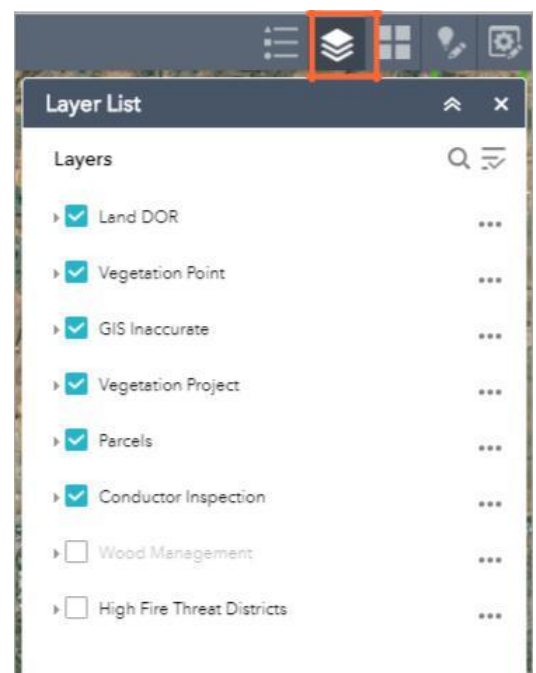

Legend and Layer List

The Legend widget displays the map legend and the symbols and colors for each layer.

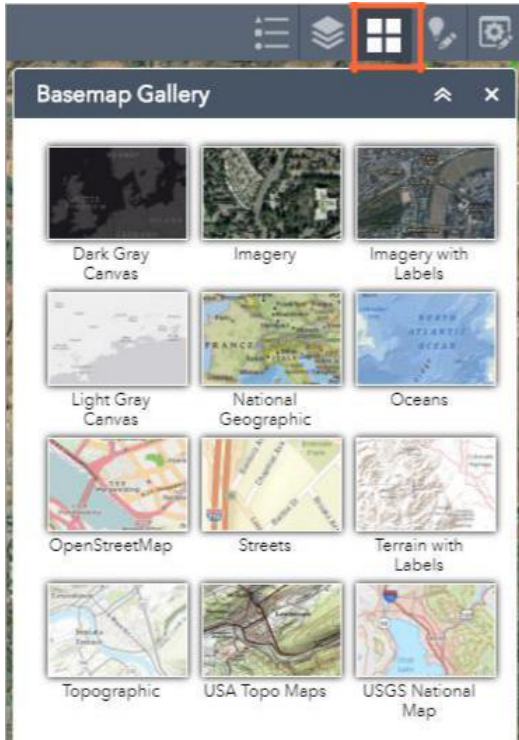

The Layer List widget displays all layers in the map.

- Click a layer checkbox to toggle it on or off.
- Click to expand a layer in the list to view its sublayers or subtypes.

Widgets and Tools

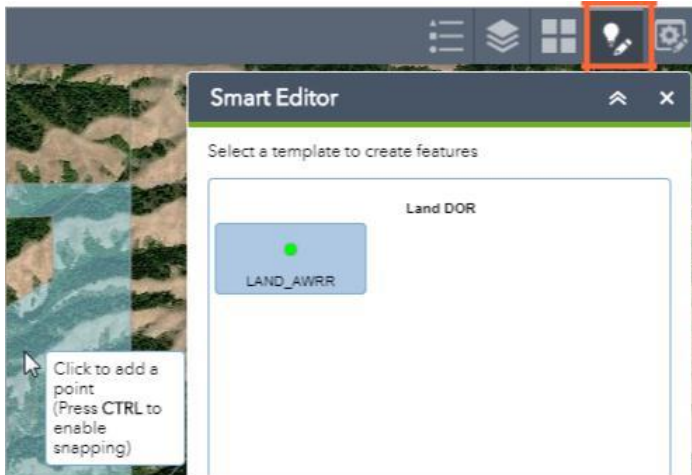

Basemap Gallery

The Basemap Gallery widget provides the option to change the background of the map.

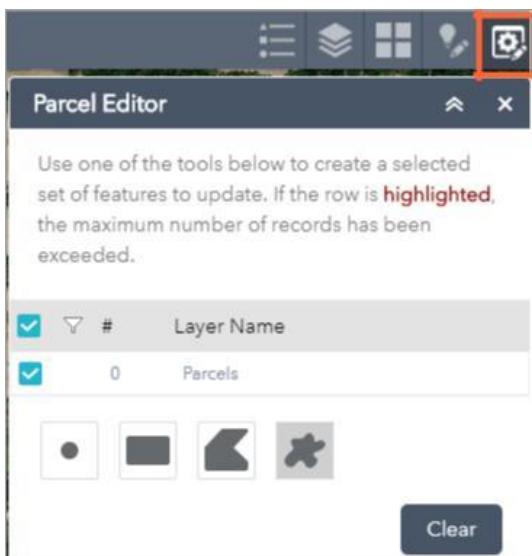

Widgets and Tools

Smart Editor and Batch Attribute Editor

Use the Smart Editor to update attributes for an individual parcel. See instructions for ([Update Parcel Attributes](#))

Use the Batch Attribute editor to update attributes for a data group at the same time. See instructions for ([Update Batch Attributes](#))

Widgets and Tools

Table View

Click the tab at the bottom-center of the screen to open Table View.

Land DOR Vegetation Point Vegetation Project Parcels													
Options Filter by map extent Zoom to Clear selection Refresh													
Load Wave	CircuitName	County	Division	APN	SiteAddress	SiteCity	SiteState	SiteZipcode	OwnerName	Owner2	MailingAddress	MailingAddress	MailingAddress
		Alameda		085A-4500-003	34442 Pelomares Rd	Castro Valley	CA	945529619	Robert D Felix		34442 Pelomares Rd	Castro Valley	Castro Valley
		Alameda		085-1609-025	5545 Cold Water Dr	Castro Valley	CA	945522627	Bernice M Phelps		5545 Cold Water Dr	Castro Valley	Castro Valley

48 features 0 selected

The Land DOR, Vegetation Point, Vegetation Project and Parcels layers are viewable as a table.

See instructions for ([Filter Table Data](#)).

Functions

Functions

Update Parcel Attributes

Use the Smart Editor to update attributes for a selected parcel.

To update attributes:

1. Zoom in on the map to view parcels.
2. Click the **Smart Editor** widget.
3. Select the **LAND_EVM** marker.
4. Click in the parcel to open the attributes window.

5. Edit attributes in the Smart Editor widget pane that opens. You can update fields that are not greyed out.
6. Click **Save** to apply your changes.

A screenshot of the 'Smart Editor' window showing a list of attributes for a 'Land DOR' template. The attributes are listed in a vertical stack of input fields: 'Load Wave', 'CircuitName', 'County', 'Division', 'APN', 'SiteAddress', 'SiteCity', 'SiteState', 'SiteZipcode', 'OwnerName', 'Owner2', 'MailingAddress', and 'MailingCity'. At the bottom of the window, there are two buttons: 'Clear' and 'Save'.

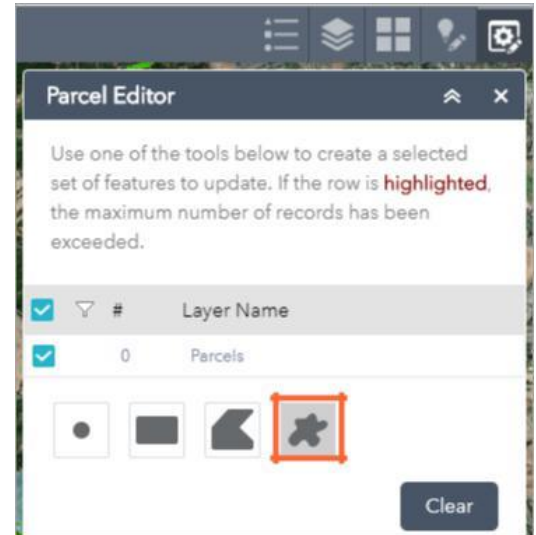

Functions

Update Batch Attributes

Use this option for updating the Land Rights Status field for multiple parcels.

To update attributes:

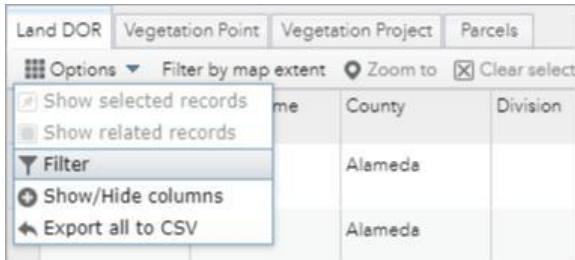

1. Select the batch attribute widget.
2. Click a selection type. Each type draws a different shape on the map. The freehand polygon selection tool is recommended.
3. Draw on the map to select the parcels to update.

4. Update the **Land Rights Status** field using the drop-down.
5. Click **Save** to apply your changes.

Functions

Filter Table Data

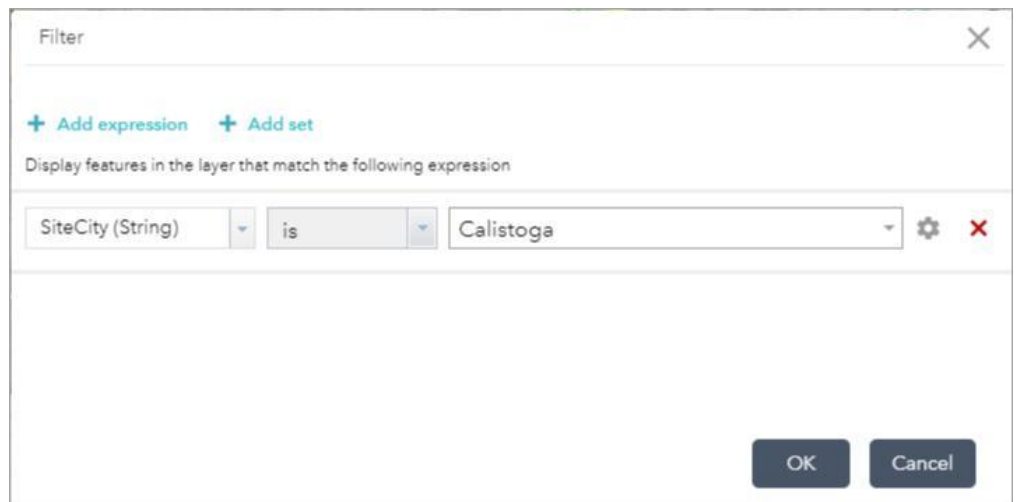

To open the filter view:

1. Select the desired layer view. Only one layer can be filtered at a time.
2. Click the **Options** button.
3. Select **Filter**.

To create a filter:

1. Click **Add expression**.
2. Select a Field from the first drop-down.
3. Select a filter Expression from the second drop-down.
4. Click the settings icon  and select **Unique** to set the values of the search field.
5. Select the search term or value from the third drop-down.
6. Click **OK** to apply filter.
7. To clear the filter, click the delete icon  in the filter window.

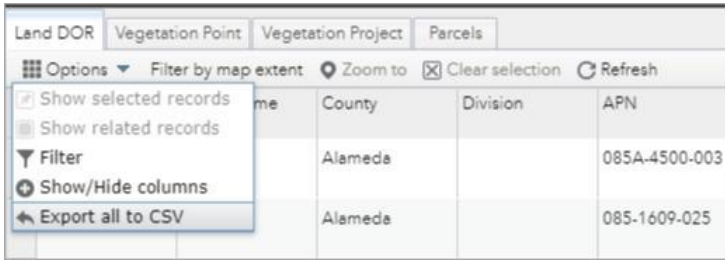

Functions

Export Table to CSV

Use the export feature to save a data file to import into an Excel Workbook.

To Export to CSV:

1. Click the **Options** button.
2. Select **Export all to CSV**.
3. Click **OK** when prompted to, **Export data to CSV file?**
4. Save the file to your computer and open in Excel.

The screenshot shows an Excel spreadsheet with the following data:

	A	D	E	F	G	H	I	J	K	L
1	OBJECTID	County	Division	APN	SiteAddress	SiteCity	SiteState	SiteZipcode	OwnerName	Owner2
2	1	Alameda		085A-4500-34442	Palmdale	Castro Valley	CA	946E+08	Robert D Felix	
3	2	Alameda		085-1609-15545	Cold	Castro Valley	CA	946E+08	Bernice M Phelps	
4	3	Butte		85-1609-215569	Cold	Castro Valley	CA	94552-262	Donald L T	Ginger L
5	4	Butte		064-120-014425	Carr	Magalia	CA	9.6E+08	James Pre	Kathleen
6	5	Butte		065-190-014568	Hol	Magalia	CA	95954	Forrest De	Jean A St
